Subject: PC 21-02; Text Amendments to Chapter 153 of Village Code (the Sign Ordinance)

Dear President and Trustees:

Your Plan Commission transmits for your consideration its recommendation regarding the above-referenced petition. The petitioner, the Village of Lombard, is requesting comprehensive text amendments to Chapter 153 of the Village Code (the Sign Ordinance), and any other relevant sections for clarity and consistency. Said section and subsection amendments, include the following:

1. 153.003 – amending type of signs.
2. 153.103 – amending the insurance requirements and penalties.
3. 153.205 – amending signs not subject to a permit fee.
4. 153.206 – amending signs not subject to a permit.
5. 153.211 – amending valance language.
6. 153.215 – amending where a development sign can be placed.
7. 153.227 – adding noncommercial signs as a sign type.
8. 153.228 – adding a provision for mixed signs.
9. 153.229 – amending where a real estate sign can be placed.
10. 153.235 – striking language that identifies sign type.
11. 153.237 – striking expired provisions.
12. 153.239 and 153.240 – striking Sections that are covered in Section 153.211.
13. 153.241 – striking language that identifies sign type.
14. 153.243 – amending the Section to allow for window signs greater than 20% of a window.
15. 153.505 – clarifying that wall signs are per frontage and striking a provision on number of signs that is no longer used.

16. 153.601 – amending the definition of the word: flag, sign, vehicle, and sign, window; adding a definition for: sign, noncommercial; striking the definition of: sign, political campaign, sign, under canopy, and sign, valance.

After due notice and as required by law, the Plan Commission conducted a public hearing for this petition on November 15, 2021. Sworn in to present the petition was Jennifer Ganser, Assistant Director.

Acting Chairperson Sweetser read the Plan Commission procedures and asked if anyone other than the petitioner intended to cross examine and, hearing none, she proceeded with the petition.

Acting Chairperson Sweetser asked if any person would like to speak in favor or against this petition, or for public comment. Hearing none, she asked for the staff report.

Ms. Ganser presented the staff report, which was submitted to the public record in its entirety. As the Plan Commission may remember text amendments were brought before this group on the Subdivision and Development Ordinance. Today, we are reviewing amendments to the Sign Code. This was a 2021 goal of staff, and a goal of the Village Board Strategic Plan was to review and update Code where needed. Past Sign Code updates were done incrementally. We wanted to make sure the Code was easy to use and addresses any conflicts. More substantial changes include: removing political campaign sign as a sign type, adding noncommercial sign as a sign type, updates in regard to Reed v. Gilbert, increasing the size of window signs, and clarifying that wall signs are per frontage. We also updated the definitions section as needed. The amendments do not require businesses to remove signs or reduce the size or location of a signs. Should the Plan Commission recommend approval, this will go to the Village Board for final consideration.

Acting Chairperson Sweetser asked if there were any questions or comments on the staff report. Hearing none, she opened the meeting for comments among the Commissioners.

Commissioner Johnston asked about the 50% coverage for windows and if that was permanent. Ms. Ganser said the percentage is increasing from 20% to 50% regardless of the time period the window sign is displayed. She noted that businesses do not come in for window sign permits, by increasing the percentage Code will be more in line to what is actually occurring. Commissioner Johnston asked about window coverage with lights and if the Police Department was concerned. Ms. Ganser said that lights are not signs. She said that 50% should still be adequate and that they have not received feedback from the Police Department.

Commissioner Spreenberg asked if the window sign code is being enforced. Ms. Ganser said staff has not received service requests for window signs.

On a motion by Commissioner Johnston, and a second by Commissioner Invergo, the Plan Commission voted 7-0 to recommend that the Village Board approve the petition associated with PC 21-02.

Respectfully,

VILLAGE OF LOMBARD

Ruth Sweetser, Acting Chairperson
Lombard Plan Commission

INTER-DEPARTMENTAL REVIEW

The proposed text amendments were reviewed by the Building, Fire, Private Engineering Services, and Public Works. There were no comments.

Planning Services Division:

Staff routinely conducts a comprehensive review of sections of the Village Code. This may be done when conflicts arise, sometimes from advancements in technology, or changing conditions. Past edits of the Sign Code were accomplished incrementally and a comprehensive review effort has been undertaken recently.

One of the results of the overall review yielded inconsistencies with capitalization and other minor errors that do not change the intent of a particular code, but rather simply clarifies the intent when confusion has arisen with its interpretation. Some edits were substantial, such as removing political signs and adding a new sign category for noncommercial signs. Staff reviewed all edits with the Village Attorney and incorporated his comments accordingly.

The purpose of Chapter 153 includes the following:

- To preserve, protect and promote the public health, safety, and welfare.
- To enhance the economy and the business and industry of the village by promoting the reasonable, orderly and effective display of signs, and encouraging better communication with the public.
- To enhance the physical appearance of the village by preserving the scenic and natural beauty of the area.
- To protect the general public from damage and injury caused by the faulty and uncontrolled construction and use of signs within the village.
- To protect pedestrians and motorists from damage or injury caused by the distractions, obstructions and hazards created by certain signs.
- To protect the public investment in streets and highways by reducing sign or advertising distractions that may increase traffic accidents.
- To protect physical and mental wellbeing of the general public by recognizing and encouraging a sense of aesthetic appreciation for the visual environment.

The proposed amendments are meant to create ease of use for the development community, for staff and Village officials ensuring Chapter 153 follows adopted provisions throughout Village Code, to remove obsolete references, and to incorporate issues experienced in the past.

The most notable change is adding a new type: noncommercial sign. This sign type is broader than the previous name of political campaign sign. Staff and the Village Attorney discussed our Sign Code in regard to a 2015 court case, *Reed v. Gilbert* (Arizona). Changing the sign type name will bring Code into further compliance with the intent of the court case. Noncommercial signs may be political in nature; however, they can also be used to support a cause or activity. *Reed v. Gilbert* established that the Town should not need to read the sign text in order to regulate where the sign can be located or the size. Codes should not use content-based regulation. Edits to flags and business flags were also made in response to *Reed v. Gilbert*.

Edits to Section 153.243 changes the percentage of space a window sign may take up. Currently, Code allows 20%, however, there are many instances in the Village where more than 20% of a window is covered. This could include signs for a one-day sale, or a grocery store advertising sale prices for the week. The proposed change increases the allowable percentage, from 20% to 50%, therefore this would not create nonconformities with existing window signs.

Section 153.505 clarifies that wall signs are per frontage and strikes a provision on number of signs that is no longer used. This is consistent with how staff uses and interprets the Code.

Definitions were amended for: flag, vehicle sign, and window sign. The amendments are for clarity and to address items from Reed v. Gilbert. A definition for noncommercial sign was added, as this is a new sign type. Definitions for signs no longer used were deleted.

EXISTING & PROPOSED REGULATIONS

See attached Exhibit A. Deletions are in ~~striketrough~~, additions are underlined.

STANDARDS FOR TEXT AMENDMENTS

For any change to the Zoning, Subdivision, or Sign Ordinance, the standards for text amendments must be affirmed. The standards are noted below:

1. *The degree to which the proposed amendments has general applicability within the Village at large and not intended to benefit specific property;*
The text amendments are applicable to all properties within the Village. The amendments would not benefit any specific property.
2. *The consistency of the proposed amendments with the objectives of this ordinance and the intent of the applicable zoning district regulations;*
The proposed text amendments are consistent with the objectives of the Zoning Ordinance.
3. *The degree to which the proposed amendment would create nonconformity;*
The amendments would not create nonconformities with current signage. Most requirements on height and square feet will remain the same. The proposed change in window signage increases the allowable percentage, from 20% to 50%, therefore this would not create nonconformities with existing window signs.
4. *The degree to which the proposed amendment would make this ordinance more permissive;*
In general, the proposed amendments will not make Code more permissive. The edits include updates for clarity, and updates to reflect how the Code is currently used. Other updates delete items that are no longer relevant. The general staff use and applicability of the Code remain the same.

The changes related to Reed v. Gilbert provides greater flexibility and uniformity through the content neutral provisions.

5. *The consistency of the proposed amendment with the Comprehensive Plan; and*
Staff finds that the proposed amendments would be consistent with the Comprehensive Plan objectives.
6. *The degree to which the proposed amendment is consistent with village policy as established in previous rulings on petitions involving similar circumstances.*
The Village has a history of amending Code to address edits for clarity and allow for updates. The proposed amendments are consistent with established Village policy in this regard.

FINDING & RECOMMENDATIONS

Based on the above findings, the Inter-Departmental Review Committee has reviewed the petition and finds that it meets the standards required by the Zoning Ordinance. As such, the Inter-Departmental Review Committee recommends that the Plan Commission make the following motion recommending approval of this petition:

Based on the submitted petition and the testimony presented, the requested text amendments **comply** with the standards required by the Village of Lombard Zoning Ordinance; and, therefore, I move that the Plan Commission accept the findings and recommendations of the Inter-Departmental Report as the findings of the Plan Commission and I recommend to the Corporate Authorities **approval** of PC 21-02.

No such sign shall be declared historically, aesthetically, or architecturally significant unless after a public hearing regarding the alleged significance of the sign, the Lombard Historic Preservation Commission determines that such sign meets the criteria and standards used by the Commission for evaluating historically significant structures. The findings and determination of the Historic Preservation Commission on such an application shall be referred to the corporate authorities, which corporate authorities shall then take such action on the recommendation of the Commission as it may deem fit, necessary and property.

ARTICLE V. - NONCONFORMING SIGNS

§ 153.301 - Statement of purpose.

This Chapter recognizes the establishment of separate zoning districts by the zoning ordinance, and details the appropriate signage for that district. Signs existing at the time of the enactment of this ordinance, codified in this Chapter, and not conforming to its provisions, shall be regarded as nonconforming signs. Nonconforming signage established illegally shall be removed immediately and shall be subject to the police power of the Village of Lombard. Legally established nonconforming signs shall be subject to the provisions of this section, as set forth below.

The purpose of this section is to provide for the regulation of nonconforming signage and to specify those circumstances and conditions under which nonconforming signage shall be permitted to continue.

§ 153.302 - Nonconforming signage.

A sign located upon a parcel of property, which is not authorized in the list of permitted signage for the zoning district in which the parcel is located shall be subject to the provisions of Subsection B, below.

- (A) *Authority to continue.* Any lawfully nonconforming sign or part of a sign may remain in use, so long as it remains otherwise lawful, for a period of time specified in subsection (G) "sign amortization schedule" hereunder. During this period of time the face of the sign may be replaced subject to the limitation of subsection (C) hereunder. At the end of the prescribed period of time, the legal nonconforming status of the sign shall expire and the sign shall be removed. The existence of a nonconforming sign on a parcel of property shall not be construed to allow the establishment of other legal, nonconforming signs on the parcel.
- (B) *Repair and maintenance.* Normal maintenance and incidental repair or changing of parts designed for changes which do not require any permit shall not be considered an alteration; and shall be permitted, provided however, that this subsection shall not be deemed to authorize any violation of subsection (C) through (F) hereunder.
- (C) *Expansion.* A legal nonconforming sign shall not be extended, expanded, enlarged, or increased in size or intensity. Such prohibited activity shall include, without being limited to:
 - (1) Expansion of the surface area, by increasing height or width beyond the dimensions of the sign at the time such sign became a legal, nonconforming.
 - (2) Expansion of the illumination of a sign, by the addition of lighting or increasing the intensity of existing lighting beyond the level of illumination existing at the time such sign became a legal, nonconforming sign.
 - (3) Expansion of useful life, by structurally altering the nonconforming signs so as to prolong the life of the sign beyond that which would have existed at the time such sign became a legal, nonconforming sign.
- (D) *Relocation.* Legal, nonconforming signs shall be allowed to be relocated wholly to any other location on the same lot, provided the new sign location meets the applicable setbacks and clear line of sight provisions. Structural elements are not allowed to be changed, as the life of the sign cannot be extended.
- (E) *Abandonment or discontinuance.* The continued use of a legal nonconforming sign shall terminate upon the existence of any one of the following conditions. Any subsequent signage shall comply with the regulations for the district in which the sign is located.
 - (1) When the use of a legal, nonconforming sign is discontinued or abandoned for a period of 90 consecutive days (regardless of any reservation of an intent not to abandon and to resume such use), such sign shall not thereafter be re-established or resumed.
 - (2) When the enterprise or business establishment, advertised or identified by a legal nonconforming sign, is terminated or relocated, such sign shall be deemed to be abandoned and said sign shall be removed from the premises.
- (F) *Damage or destruction.* In the event that any sign in whole or in part is a legal, nonconforming sign is damaged or destroyed, by any means, to the extent of more than 50 percent of the fair market value of such sign immediately prior to such damage, such sign shall not be restored

unless such sign shall thereafter conform to all regulations for the district in which such sign is located. When such damage or destruction is 50 percent or less of the fair market value of such sign immediately prior to such damage, such sign may be repaired and reconstructed and returned to the same condition and use as existed prior to the damage or destruction, provided such repairs or reconstruction is commenced and completed within 90 days of the date of damage or destruction. The fair market value shall be determined by the Director of Community Development, based on an appraisal conducted by an independent sign contractor.

- (G) *Sign amortization schedule.* Any sign lawfully existing or under construction on the effective date of this § 153.302 which does not conform to the provisions of Chapter 153 of the Village Code; shall be removed or made to conform within seven years of the date of notification by the village that the sign no longer conforms with the requirements of Chapter 153 of the Village Code. Any sign lawfully existing or under construction on the effective date of this § 153.302 which does not conform to the provisions of Chapter 153 of the Village Code may request a variation as outlined in subsection 153.103(l) of this Code.
- (H) *Notification requirement.* It shall be the duty of the Owner or Lessor of any property on which a legal nonconforming sign is located to represent, in writing, to a buyer or tenant the number of years remaining on the amortization schedule for any sign on said property which is subject to the provisions of this section. Failure of the Owner or Lessor to provide such information in writing as part of the lease or contract for sale shall be considered a violation of this section.
