Subject: FY25/26 Vehicle Replacement, tandem axle salt truck and dump truck

The FY25/26 vehicle replacement schedule includes replacement of two tandem axle trucks in the Public Works fleet. One from the Street Department, a 2016 Peterbilt slated for replacement in 2026. The other is from the Water Department, a 2013 international slated for replacement in 2025. Over the past 4 years these vehicle chassis and upfit have experienced very long lead times, over 2 years in some instances. The Village is still waiting on delivery of two other salt trucks, one of which was ordered in May of 2022. These problems persist with one of the major delays now being a backlog of chassis that have been delivered to the equipment upfitters. Given these challenges, Public Works has continued to explore all options to source vehicles to replace our aging ones that are due for replacement.

After researching and having discussions with several vehicle manufacturers and equipment upfitters, it has been determined that a Freightliner chassis and Henderson equipment upfit best fulfills the Village's need to replace the salt and dump truck due for replacement. The estimated lead time for delivery would be late in the fourth quarter of 2025. This will be our best option to keep both these vehicles as close to their replacement schedules as we can. Both the chassis and equipment are available through joint bid purchasing consortiums. The total price will be \$302,258 for the salt truck, and \$239,063 for the dump truck. Both are below the budgeted amount for replacement. Water Department truck WT347(vin # 1HTWGAZT9DH416745) and Street Department truck ST345 (vin # 2NP3LJ0X9GM352166) will be declared surplus and disposed of in the most advantageous manner to the Village.

Staff recommends the Board of Trustees waive the competitive process and award two contracts for the purchase of 2 tandem axle chassis and upfit of salt and dump body equipment in the total amount of \$541,321. One contract to TransChicago of Elmhurst (IL) for the purchase of two Freightliner 108SD tandem axle chassis available for purchase through Sourcewell contract #032824 in the amount of \$247,966. The second contract to Henderson Products Inc. of Huntley (IL) for equipment and installation to upfit a salt and dump truck available for purchase through NPPGov (National Purchasing Partners) contract # PS22170 in the amount of \$293,335. Please submit this item to the Village Board for their consideration at the January 23, 2025 meeting.
