Subject: FY26 Vehicle Replacement, Fire Engine

The Village currently has four Pierce fire engines in the Fire Rescue Fleet. The fire department has developed a specification with Pierce Manufacturing for these fire engines that work for their operations and would like to keep the fire engine fleet as standardized as possible. Therefore, not deviate from the Pierce specifications they currently have.

The Village's fleet replacement schedule calls for the FY2026 budget to include the replacement of a 2010 Pierce fire engine, unit number FR44. Pierce is still experiencing very long lead times from when an order is placed until delivery. The current lead time is 30-36 months. To receive a fire engine to replace FM44 as scheduled, an order will need to be placed now. The replacement will likely not be received till sometime in 2028.

The Pierce fire engine is available for joint purchase through Houston-Galveston Area Council (HGAC) contract #FS12-19 (VA-10). The Pierce dealer in our area is MacQueen Equipment LLC, DBA MacQueen Emergency Group of Aurora (IL). The cost of the new fire engine is \$1,179,000.00. The Village placed an order with MacQueen for a fire engine with the same specifications that was approved at the April 6, 2023 BOT meeting to replace another one of the other four fire engines that was scheduled for replacement in 2024 in the amount of \$920,000.00. That order is expected to be delivered in the second quarter of 2025.

Given the long lead time of this vehicle, staff recommends the Board of Trustees waive bid and award a contract to MacQueen Emergency Group of Aurora (IL) in the amount of \$1,179,000.00 for one new Pierce fire engine with specifications attached to this memo. Fire Rescue unit 44 that this purchase is replacing will be declared surplus and disposed of once the new unit has been received. Please submit this item to the Village Board for their consideration at the December 5, 2024 meeting.

The cancellation fee will increase accordingly as costs are incurred as the order progresses through engineering and into manufacturing. MacQueen endeavors to mitigate any such costs through the sale of such Product to another purchaser; however, Customer shall remain liable for the difference between the Purchase Price and, if applicable, the sale price obtained by MacQueen upon sale of the Product to another purchaser, plus any costs incurred by MacQueen to conduct any such sale.
