Subject: Request for 30 Minute Parking on Park Avenue

Attached is a petition from Dr. St. Germain requesting one 30-minute parking space for chiropractic patients at 13 S. Park Avenue. All the affected businesses were contacted and are in favor of this request. However, this is a public street and assigning a public parking stall for the sole use of a business is not recommended. A 30 minute stall could be created with the understanding that anyone has the right to park there for no longer than 30 minutes. Staff is recommending the creation of one parking space with a 30 minute time limit.

I would recommend a provision that any time a question arises as to the need of a restricted time limit parking zone, a petition should be circulated. Due to changing conditions and land use, this would allow the Village to revisit a request for additional, restricted parking, or removal of the time limit restrictions, in a formal manner. The Village has in the past required 100% acceptance from all affected businesses to post time limit parking.

St. Germain Chiropractic Center, at 13 S. Park Ave., would like to petition for one parking space in front of this office for patients that are temporarily disabled. Patients are in pain and have difficulty walking, so this would accommodate them. In agreement with this petition are the undersigned neighbors.
