Village of Lombard/XSELL Revenue Reconciliation Statement of Work ("SOW")

Overview:

Effective January 1, 2012, Public Act 97-0632 established the "Local Debt Recovery Program" to allow units of local government, school districts, and public institutions of higher education to collect outstanding debt in coordination with the Illinois Comptroller's Office. The Act provides for an offset or deduction from State proceeds to individuals in order to pay either all of or a portion of the claim or account to the State of Illinois or the United States.

XSELL Technologies provides software and services that allow local claiming entities (LCE) to overcome the complexities in revenue reconciliation and administrative procedures related to the Local Debt Recovery Plan. The resources required from LCEs are limited. In return, XSELL creates fact based, data driven sustainable solution that identifies funds outstanding – significantly improving matches and returned revenues.

XSELL's software and services increase revenue reconciliation resulting in a myriad of social benefits, including but not limited to: creating services and jobs for citizens; reduce tax burdens; improving budget balance; and allows LCE to pioneer in setting national standard for revenue reconciliation technologies.

Objectives:

XSELL's Revenue Reconciliation Program was created with the following intentions:

- 1. Provide IOC file preparation for the following files:
 - i. Local Claiming Entity Involuntary Pre Add File
