

AGREEMENT FOR CONSULTANT SERVICES

This AGREEMENT FOR CONSULTANT SERVICES ("the Agreement") made and entered into this 9 th day of JAN. 2020, by and between the VILLAGE OF LOMBARD, an Illinois municipal corporation ("VILLAGE") and Robinson Engineering, Ltd. ("CONSULTANT"). The VILLAGE and CONSULTANT are sometimes referred to herein individually as a "Party" and collectively as the "Parties".

WITNESSETH

WHEREAS, CONSULTANT is a firm of consulting engineers experienced in the field of general municipal engineering, drainage, and site development improvements; and

WHEREAS, the VILLAGE has a need for consulting engineering services on a periodic basis for purposes of answering questions on general municipal engineering, reviewing plans and generating reports relating to general municipal engineering, drainage, and site development improvement issues; and

WHEREAS, the VILLAGE desires to retain the services of the CONSULTANT for periodic consultation with respect to general municipal engineering, drainage, and site development improvement issues in accordance with the Village's Request for Qualifications dated November 18, 2014, a copy of which is attached hereto as Exhibit "A" and made part hereof (the "RFQ"); and

WHEREAS, CONSULTANT desires to provide such consulting services upon the terms and conditions hereinafter set forth;

NOW, THEREFORE, in consideration of the foregoing recitals and of the covenants and conditions hereinafter set forth and other good and valuable consideration, the adequacy and sufficiency of which the Parties hereto hereby stipulate, the Parties agree as follows:

1. **INCORPORATION OF RECITALS:** The above "Whereas" clauses are expressly incorporated herein as substantive provisions of this Agreement.
2. **RELATIONSHIP BETWEEN CONSULTANT AND VILLAGE:**

CONSULTANT shall serve as the VILLAGE'S engineering consultant. This relationship is that of a buyer and seller of professional services and it is understood that the Parties have not entered into any joint venture or partnership with the other. The CONSULTANT is an independent contractor and shall not be considered to be the agent of the VILLAGE. The CONSULTANT shall render consulting services in accordance to generally accepted and currently recognized engineering practices and principles. The CONSULTANT shall conduct services under this Agreement in a manner consistent with that level of care and skill ordinarily exercised by members of the CONSULTANT's profession currently practicing in the same locality under similar conditions as of the date of this Agreement. Each Party shall designate one person to act with authority on its behalf. The person designated shall review and respond promptly to communications received from the other Party.

3. ENGINEERING SERVICES – DAY-TO-DAY CONSULTATION:

- A. The VILLAGE contracts with CONSULTANT, and the CONSULTANT accepts such contractual arrangement to perform ongoing engineering consulting services on a periodic basis with respect to general municipal engineering, drainage and site development improvement issues, including, but not limited to, consultation, plan review report generation, etc. (“ASSIGNMENT” or “ASSIGNMENTS”). These types of assignments are described in further detail in the Scope of Services Exhibit, attached hereto as Exhibit “B” and made part hereof.
- B. ASSIGNMENTS shall be undertaken by CONSULTANT at the request of the VILLAGE’S Director of Public Works or his designee, including execution of documents on behalf of the VILLAGE in the capacity of “Village Engineer,” provided the CONSULTANT is in concurrence with the content of said documents, in CONSULTANT’S professional judgment. When any ASSIGNMENT requires a written response or report by the CONSULTANT, such response or report shall be in writing.
- C. The CONSULTANT shall work at the Lombard Public Works Facility between sixteen (16) and twenty-four (24) hours per week for periodic activities, resources, and support provided to VILLAGE Public Works staff, relative to those items set forth in Section D. PROJECT SCOPE of the RFQ, explicitly excluding any work related to third party site development improvement issues subject to reimbursement agreements.

The VILLAGE shall pay CONSULTANT in accordance with the Local Government Prompt Payment Act. The rate of One Hundred Seventy-Four and No/100 Dollars (\$174.00) per hour, inclusive of all direct and indirect costs, shall remain in effect through the term of this agreement.

However, in regard to any ASSIGNMENT given to the CONSULTANT, that the CONSULTANT reasonably believes would exceed the defined terms of this AGREEMENT, the CONSULTANT shall provide a not-to-exceed estimate to complete the work before proceeding. Upon completion of the ASSIGNMENT, the CONSULTANT shall be reimbursed for all time devoted to any given ASSIGNMENT based on the CONSULTANT’S cost. The CONSULTANT’S cost shall be the sum of direct labor cost, other direct costs, and indirect costs incurred to complete the ASSIGNMENT. These costs are defined as follows:

“Direct labor costs”: Shall be the actual amount paid to employees and partners for time chargeable, during a normal eight (8) hour work day, with respect to an ASSIGNMENT.

“Other direct costs”: Shall be customary, usual, and identifiable actual out-of-pocket expenses incurred by the CONSULTANT with respect to an ASSIGNMENT.

A. PURPOSE

The Village of Lombard invites qualified, licensed professional engineering Firms and individuals to submit their Qualifications for Municipal Engineering Services. The Village seeks a contract with a firm and/or an individual to provide for a Village Engineer through an outsourced service arrangement.

For the purpose of this RFQ, “Village” means Village of Lombard and “Firm” means the engineering Firm or individual submitting a response to this RFQ. Qualified Firms shall provide services based on the Project Scope and Submittal Requirements sections provided below.

B. BACKGROUND

The Village of Lombard is located approximately 14 miles west of downtown Chicago and serves as a gateway to the western suburbs. It is an ethnically diverse community of 43,773 residents, with tree-lined streets, beautiful neighborhoods and parks, an excellent school system, and prosperous business community. The Village’s departments are the Village Manager’s Office, Finance, Police, Fire, Public Works and Community Development. More information regarding the Village in general can be found at www.villageoflombard.org.

Starting on January 1, 2015, the Village is transitioning from a full-time, on-staff Village Engineer to a part-time contractual arrangement. The Village Engineer maintains an office in the Village’s Public Works building and reports directly to the Assistant Director of Public Works and the Director of Public Works. The Village Engineer oversees three civil engineers and three civil engineering technicians. The Village Engineer’s duties pertain only to projects in the public right-of-way or on other Village-owned properties. The Village’s Private Development Engineer in the Community Development Department handles all private property construction and drainage matters, including all stormwater permits.

The Village Engineer shall maintain an office in the Village’s Public Works administration building, with a computer and maintained regular on-site weekly hours so as to provide the Village with a part-time “staff” presence. The Village Engineer provides all engineering services except design, construction observation, and other work requiring manpower such as traffic studies.

The Village contracts with numerous professional firms for geotechnical engineering, design engineering, resident engineering and hydrology and hydraulic engineering services. The Village Engineer has traditionally managed the Qualification-Based Selection process for these shortlists. The Assistant Director will now manage the processes. The Firm that is selected to serve as the Village Engineer will not be eligible to participate in these shortlists.

C. PROJECT OBJECTIVE

Based upon the currently proposed 10-year Capital Improvement Plan, the Village has determined that it cannot justify the need and cost for a full-time Village Engineer. Daily management of

engineering staff will be the responsibility of the Assistant Director. The Firm shall provide technical and project management duties as detailed in the Project Scope, below. It is estimated that the Firm will provide an average of 24 hours of service weekly. However, the actual hours will be as workload demands and both parties agree upon.

D. PROJECT SCOPE

Firms and individuals must demonstrate that they have the qualifications to serve as the Village Engineer. The selected Consultant Engineer shall provide technical and project management leadership for staff as well as direct services including:

1. Grant writing and submittal
2. Obtaining permits from regulatory agencies
3. Capital project estimates for budgeting
4. Preparing and bidding Village capital projects
5. Public project management and inspection
6. Project documentation, especially on IDOT forms
7. Liaison to IDOT, DuPage County, DuPage Mayors & Managers Transportation Technical Committee
8. National Pollutant Discharge Elimination System stormwater permit compliance
9. Responding to public right-of-way drainage and grading complaints
10. General municipal engineering design and assisting with GIS layer development
11. Attending occasional (not all) Village Board, Public Works Committee, Transportation & Safety Committee, and staff meetings
12. Reviewing Traffic studies
13. Updating and Administering the Village's Engineering Standards and Specifications
14. Assisting Village staff as needed
15. Providing input for staff evaluation by the Assistant Director.

E. LICENSES

Each party submitting Qualifications shall possess all necessary federal, state, and local licenses as are required by law, and shall furnish satisfactory proof to the Village upon request that the licenses are in effect during the entire period of the contract.

Following the sealed response opening, staff will review the responses and will notify submitters of any additional schedules as deemed necessary and will notify all Firms of review status in a timely manner.

G. SUBMITTAL REQUIREMENTS

All Qualifications must be signed by an authorized official. Qualifications that contain omissions, erasures, alterations, or additions not called for, conditional or alternate cost Qualifications unless called for, or that contain irregularities of any kind may be rejected.

All Qualifications must be submitted to the Village of Lombard, **no later than Friday, December**

5, 2014 at 4:00 p.m. Provide three paper copies and one electronic copy (by CD or USB flash drive) of the RFQ Response sealed in one envelope and plainly marked with the title **“MUNICIPAL ENGINEERING SERVICES”**. The proposal must be shipped via United States Postal Service, Federal Express, or United Parcel Service or may be dropped off in person at the Public Works Administration Building:

Carl S. Goldsmith
Director of Public Works
1051 S. Hammerschmidt Avenue
Lombard, Illinois 60148

Qualifications shall not exceed 20 pages. The Village is not interested in brochures, boilerplate filler, or general information that is not relevant to this process. Firms submitting Qualifications are advised to provide a clear and responsive approach to addressing all issues noted in this RFQ. The Qualifications shall include the following and be organized in the order in which they appear below:

1) Firm Description - A title page that includes the following information: name of Firm, mailing address, telephone number, fax number, e-mail address, name of contact person, location of branch offices, if any. Provide a brief history of the Firm.

Indicate if your Firm, ownership, management or employees have ever been involved in litigation or had complaints file for improper practices with the Illinois Department of Professional Regulations or any other state or federal regulatory authority? Please explain.

2) Project Team - Names and qualifications of specific project staff who are qualified to act in the primary role of Village Engineer and supporting roles. Also provide a brief description of relevant projects in which the staff has played a central role. Provide an organizational chart clearly delineating individual responsibilities.

3) Experience - A description of experience and expertise in providing engineering services for similar communities with experience in water, sewer, streets, stormwater, and general municipal engineering services.

4) Proposed Engineering Model(s) - An understanding of the Village's need for Municipal Engineering Services and the role the Village Engineer should play. Specific example and insights will be useful in this section.

5) Completed Work References - Provide three (3) municipal references including current contact name and phone number where the Firm provides similar services.

6) Exceptions - Indicate any exceptions taken to the terms and conditions, contractual, and other requirements defined in the RFQ. If exceptions are taken, cite the paragraph involved, the

exception taken, and state alternative language acceptable to the Firm. Alternative language is subject to negotiations and/or approval.

H. EVALUATION CRITERIA

Firms will be evaluated and ranked by the Village based on the following:

1. Responsiveness to submission requirements
2. Qualifications of the Firm
3. References
4. Ability to provide services as stipulated in the RFQ

The Village reserves the right to undertake such investigations as it deems necessary to verify qualifications.

K. CONFIDENTIALITY

The Village Manager shall examine the Qualifications to determine the validity of any written requests for nondisclosure of trade secrets and other proprietary data identified. After award of contract by the Village Board, all responses, documents and materials submitted by the Firm pertaining to this RFQ will be public information and will be made available for inspection, unless otherwise determined by the Village Manager. All data, documentation and innovations developed as a result of these contractual services shall become the property of the Village. Based upon the public nature of these RFQ's, a Firm must inform the Village in writing of the exact materials in the offer which cannot be made part of the public record in accordance with the Illinois Freedom of Information Act.
